- **Architecture & UX:** UML, Visio, Photoshop, Illustrator, Sketch, Zeplin, Invision, Figma

## Professional Experience:

**Company:** Persistent Systems Ltd., Pune, India

**Designation:** Architect

**Duration:** May 2019 - Present

**Client Company:** Frontdoor, Inc, US

**Project:** SalesCentral

**Role:** Lead Developer

**Duration:** January 2024 - Present

**Project Summary:** The SalesCentral application helps buyers/sellers/agents to create a new order or modify existing plans along with maintenance of existing home warranty or home appliance insurances.

### **Roles & Responsibilities:**

- Developed various business logic as per requirement & created reusable shared components to ensure a consistent user experience across the application.
- Integrated elastic-search APIs & Zesty APIs with React.js, ensuring seamless communication between the frontend and backend systems.
- Worked on micro-frontend architecture to modularize the application, enabling independent deployment of different application parts.

**Skills Used:** HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, React.js, Angular, Zesty CMS, Optimizely, Node JS, Jest

**Client Company:** Frontdoor, Inc, US

**Project:** AHS.com

**Role:** Lead Developer

**Duration:** March 2020 - December 2023

**Project Summary:** AHS.com (American Home Shield) is the main website from where customers are redirected to the sales funnel for purchasing home warranty & home appliance insurances.

### **Roles & Responsibilities:**

- Led the migration of an existing Angular website to React.js integrated with Zesty CMS, enhancing performance and user interface.
- Developed various web pages and created reusable shared components with the help of in house Blueprint Design System UI Library..

- Worked on Zesty CMS to create & update schemas, content, code for creating APIs as per requirements and integrated it into Next.js application so that it can generate SEO friendly web pages.
- Conducted interviews and code reviews to ensure the team adhered to high-quality coding standards and best practices.

**Skills Used:** HTML5, CSS3, JavaScript, TypeScript, Tailwind CSS, React.js, Angular, Next.js, Zesty CMS, Node JS, Jest

**Client Company:** Frontdoor, Inc, US

**Project:** B2B Real Estate Portal

**Role:** Lead Developer

**Duration:** October 2019 - March 2020

**Project Summary:** This application was intended for vendors who can manage property listings, add customer details & provide necessary information.

**Roles & Responsibilities:**

- Held and Lead Scrum Meetings and Ceremonies to Monitor and Track Project Progress.
- Conducted interviews and code reviews to ensure the team adhered to high-quality coding standards and best practices.
- Developed SPA using Angular Router and React-Bootstrap.
- Conducted A/B Testing and created shared components.

**Skills Used:** HTML5, SCSS, JavaScript, React-Bootstrap, TypeScript, Angular, Node JS

**Company:** Capgemini Technology, Pune, India

**Designation:** Senior Consultant

**Duration:** February 2018 - May 2019

**Client Company:** HSBC Holdings plc, Hong Kong

**Project:** Bankfeed

**Role:** Senior Team Lead

**Duration:** March 2018 - May 2019

**Project Summary:** The project involved Backbase development with Angular and React JS to create a Bankfeed module for HSBC. The goal was to enhance the banking experience by migrating existing modules to a modern framework.

**Roles & Responsibilities:**

- Migrated the legacy Bankfeed module to a new framework using Backbase, improving performance and maintainability.
- Developed a Single Page Application (SPA) and assisted other teams in resolving issues using Angular and React.
- Led the architectural design and implementation of key UI components, ensuring scalability and reusability across the project.
- Collaborated with cross-functional teams to integrate the Bankfeed module with other banking services, enhancing the overall functionality and user experience.

**Skills Used:** HTML5, SCSS, JavaScript, Backbase, React.js, Node JS

**Company:** Zensar Technologies, Pune, India

**Designation:** Senior Software Engineer

**Duration:** December 2014 – February 2018

**Client Company:** Mastercard Inc, US

**Project:** 'Gesso' framework

**Role:** Senior UI Developer

**Duration:** August 2017 – January 2018

**Project Summary:** The Gesso framework is an in-house UI framework developed for Mastercard to serve as the foundation for future applications and websites. The framework was built from scratch using plain HTML, CSS, and JavaScript, with a focus on creating a robust, flexible, and scalable solution.

**Roles & Responsibilities:**

- Developed the 'Gesso' framework, incorporating it into Adobe Experience Manager (AEM) to streamline the creation of web applications and sites.
- Created fully customizable components from scratch, ensuring they were cross-browser compatible, responsive, and interactive to provide a seamless user experience.
- Conducted interviews and provided training sessions for new team members to onboard them effectively and enhance the team's skill set.
- Collaborated with design and product teams to ensure the framework met both aesthetic and functional requirements, resulting in a cohesive and user-centric platform.
- Performed rigorous testing and debugging of the framework to ensure high performance and reliability, significantly reducing issues in production environments.

**Skills Used:** HTML5, CSS3, HTML5shim, JavaScript, AEM, SCSS

**Client Company:** Nakumatt Holdings Limited, Kenya

**Project:** Nakumatt E-Commerce Website

**Role:** Senior UI Developer

**Duration:** January 2016 – July 2017

**Project Summary:** Nakumatt, a Kenyan supermarket chain, had an e-commerce website aimed at enhancing its online presence and providing a seamless shopping experience for customers. The project involved developing a robust and user-friendly platform to support the company's digital transformation.

**Roles & Responsibilities:**

- Built the e-commerce platform website, including the admin panel UI, to manage products, orders, and customer interactions efficiently.
- Conducted interviews and training sessions for team members to ensure a strong, capable development team.
- Optimized website performance and load times by implementing best practices in front-end development, leading to an improved user experience.
- Collaborated with cross-functional teams, including designers and backend developers, to integrate new features and ensure the platform met all business and technical requirements.

**Skills Used:** HTML, CSS, JavaScript, jQuery, Bootstrap, Magento

**Project:** Internal Projects

**Role:** Senior UI Developer

**Duration:** January 2015 – December 2015

**Project Summary:** The Zensar company wanted to create multiple mobile applications for their employees such as Timesheet, MySkills etc. to let employees use necessary functionalities from mobile applications.

**Roles & Responsibilities:**

- Developed mobile-based applications using PhoneGap and Cordova to provide a seamless user experience for Zensar employees.
- Conducted interviews and peer-reviews to build a skilled team and ensure high-quality code standards.
- Optimized website & app performance and load times by implementing best practices, leading to an improved user experience.

**Skills Used:** PhoneGap, Cordova, HTML, CSS, JavaScript, jQuery, Bootstrap

**Company:** Allacode Technologies, Pune, India  
**Designation:** Associate Consultant-UI Development  
**Duration:** July 2014 – December 2014

**Client Company:** New Light Shop, Dubai  
**Project:** New Light Shop - Ecommerce Website  
**Role:** *Associate Consultant-UI Development*  
**Duration:** July 2014 – December 2014

**Project Summary:** The project involved developing an e-commerce website dedicated to selling LED light products. The goal was to create a user-friendly and responsive platform to enhance the online shopping experience for customers.

**Roles & Responsibilities:**

- Developed the e-commerce website using Joomla, ensuring a seamless user experience and smooth functionality across various devices.
- Attended client meetings to discuss requirements and gather insights to align the development process with business goals.
- Implemented advanced UI features using jQuery and JavaScript, enhancing the website's interactivity and customer engagement.
- Collaborated with the backend development team to ensure seamless integration of UI components with the e-commerce platform, resulting in a cohesive and efficient online shopping experience.

**Skills Used:** Demandware, HTML, CSS, jQuery, Bootstrap, JavaScript, Joomla

**Company:** sAvh Technologies, Pune, India  
**Designation:** Web Designer  
**Duration:** July 2013 – October 2013

**Project:** e-PropSell Web Application  
**Role:** *Full-stack Developer*  
**Duration:** July 2013 – October 2013

**Project Summary:** The project involved creating a web application for property builders, named e-PropSell, to help them efficiently allocate and manage properties while keeping customer details organized in one centralized platform.

**Roles & Responsibilities:**

- Developed the entire e-PropSell web application from scratch, focusing on functionality to manage properties and customer information effectively.

- Designed and implemented a responsive user interface to ensure seamless access across various devices, enhancing user engagement and accessibility.
- Integrated database management features using MySQL, enabling efficient storage, retrieval, and organization of property and customer data.
- Collaborated with the backend development team to ensure seamless integration of UI components with the e-commerce platform, resulting in a cohesive and efficient online shopping experience.

**Skills Used:** PHP, MySQL, jQuery, HTML, CSS

**Company:** Right To Information Office, Satara, India

**Designation:** Web Developer

**Duration:** April 2009 – April 2011

**Project:** MahitiAdhikar.com & RTIClubIndia.com

**Role:** Web Developer

**Duration:** April 2009 – April 2011

**Project Summary:** The project involved the development and maintenance of two websites focused on customer registration, complaint handling, news updates, and member management. The sites were aimed at providing a platform for citizens to access information and services related to the Right to Information Act.

**Roles & Responsibilities:**

- Developed and maintained the Maharashtra Right to Information websites, mahitiadhikar.com and rrticlubindia.com, ensuring functionality for customer registration, complaint management, news updates, and member services.
- Collaborated closely with the design team to implement user-friendly interfaces and improve site navigation, enhancing the overall user experience.
- Conducted regular site performance testing and debugging, optimizing website speed and ensuring cross-browser compatibility.

**Skills Used:** PHP, HTML, CSS, JavaScript

**Research Published/Publications:**
